ABDELRAHMAN ISMAEEL

FRONT-END DEVELOPER

I'm Abdelrahman Ismaeel, a Front-End Developer with hands-on experience in building modern web, Mobile and desktop applications using React JS, React native, and Electron. Passionate about creating clean, responsive user interfaces and delivering high-performance user experiences. Skilled in writing maintainable code and following best practices in UI/UX development.

PROJECTS

Zoksh Store – React, PHP, Bootstrap
An e-commerce website delivered to a real client.

Rest Countries App – HTML, CSS, JS, API
Dynamic app that displays country data using RESTful APIs.

Advice Generator – HTML, CSS, JS, API
Generates random advice from a public API.

Rock, Paper, Scissors – HTML, CSS, JS
Simple interactive game using basic JS logic and randomness.

TODO List App – HTML, CSS, JS
Uses LocalStorage to manage a persistent to-do list.

Calculator App – HTML, CSS, JS
Fully functional calculator with clean UI.

Multi-step Form – HTML, CSS, JS
Mimics SPA behavior with form validation and step transitions.

Simple Login Platform – HTML, CSS, JS
Login form with real-time validation and UI feedback.

Clothes Store Template – HTML, CSS, JS
 A front-end template for an online fashion store (first project).
